

HVAC Technician Online Seminars

PRESENTED BY US AIR CONDITIONING DISTRIBUTORS

York And ADP Single Piece Air Handlers With A2L And RDS; Wiring And Start up

The class will cover wiring differences associated with the Refrigerant Detection System as it pertains to the installation and service of R-454-B refrigerant systems. Differences between the York and ADP RDS boards, and how it affects the installation and service will be also discussed. This class is for installers and service technicians, owners, and warranty managers. Instructor is Matthew Getz and class hours are 7:00-8:00 am PST.

Seminar dates
09/08/25
09/22/25

Residential Rooftop Package Units With RDS Trouble Shooting

This class focuses on the startup service, and troubleshooting of rooftop units, including indoor ECM blower motors, RDS control sensors, compressors, static pressure, and control wiring. This online class is for installers, service technicians, and service managers. Instructor is Matthew Getz and class hours are 7:00-8:00 am PST.

Seminar Date
