

# SERVICE TECHNICIAN SEMINARS

## USACD NORTHERN CALIFORNIA

### Simplicity Equipment 3.3 Programming, Startup and Installation Procedures

Learn the new SSE programming structure and startup procedure that is not only needed but required for all York commercial equipment 3 to 50 ton. In addition, learn the programming of the VFD. These units are not always factory programmed for the job requirements and need to be setup at installation for each individual situation & application.

Learn how to set up each control board for your application and migrate that program to other units to minimize your work and efforts.
